

## Special Issue

# Oral Inflammation— Environment, Molecules, and Cells in Oral Physiology and Pathology

### Message from the Guest Editor

This Special Issue “Oral inflammation – Environment, Molecules, and Cells in Oral Physiology and Pathology” will cover a selection of recent research topics in the field of oral inflammation and immunology. Deciphering oral inflammatory processes and immune responses can advance our understanding of oral physiology and pathology, in general, with newly identified immune checkpoints being potential novel therapeutic targets for dental diseases and malformations. The scope of this Special Issue, therefore, encompasses papers dealing with oral inflammation in etiopathogenesis and the clinical-biological manifestation of oral disease, malformations, and health with a focus on environment signals and molecules that can induce, shape, mediate, or propagate inflammatory conditions in the oral cavity, as well as on immune and other oral immune-supporting cells and their role in oral inflammatory responses.

### Guest Editor

Prof. Dr. Peter Proff

Department of Orthodontics, Faculty of Medicine, University of Regensburg, Franz-Josef-Strauss-Allee 11, 93053 Regensburg, Germany

### Deadline for manuscript submissions

closed (31 December 2020)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
