

Special Issue

Biotechnological Applications of Oxidoreductases

Message from the Guest Editors

The submission of manuscripts is now welcome for the Special Issue “Biotechnological applications of oxidoreductases”, which will contain a selection of papers dealing with biotechnological applications of oxidoreductases. Original research reports, review articles, and commentaries are welcome.

Oxidoreductases comprise a large number of enzymes of industrial relevance: peroxidases, peroxygenases, laccases, flavin-containing oxidases and dehydrogenases, unspecific peroxygenases (UPOs), dye-decolorizing peroxidases (DyPs), copper-containing lytic polysaccharide monoxygenases (LPMOs), etc. This Special Issue aims to cover all aspects, from the discovery of novel oxidoreductases, mechanisms of action, and structure–activity relationships to their applications in the production of fine chemicals and polymer building blocks, biosensors, biomaterials, and use in biorefineries for a bio-based economy.

Guest Editors

Prof. Dr. Rebecca Pogni

Department of Biotechnology, Chemistry and Pharmacy, University of Siena, Siena, Italy

Dr. Maria Camilla Baratto

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
