# New Insights in Nanomaterials and Electroactive Molecules—in Memory of Prof. Royce W. Murray

### Message from the Guest Editor

Two years ago, in July 2022, we received the sad news that Prof. Royce W. Murray passed away. He has left not only hundreds of valuable articles in various subjects in chemistry but also hundreds of students and colleagues who worked with him during his long career. As one of the privileged students and postdocs who worked in Murray's group, I witnessed the admiration that we all felt towards him, feeling his attitude, wisdom, and influence throughout my own career in the years to come. In memory of Prof. Murray, I was offered by the Editorial Board of *IJMS* to serve as a of a Special Issue titled "New Insights in Nanomaterials and Electroactive Molecules—in Memory of Prof. Royce W. Murray", which will be dedicated to him. The scope of this Special Issue is wide and includes many aspects of molecular studies in physical chemistry and chemical physics, molecular biology and medicine, macromolecules and polymers, material science, molecular nanoscience, and informatics. It reflects the wide scope of topics on which Prof. Murray has worked and published.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
