

Special Issue

Molecular Research in Leukemia

Message from the Guest Editor

The aim of this Special Issue is to showcase innovative research that uncovers molecular mechanisms, explores new diagnostic tools, and develops targeted therapies for leukemia. Molecular research has significantly contributed to improved diagnosis, better prognostic stratification, and major advances in precision medicine for leukemia. We invite investigators, clinicians, and scientists to contribute original articles, reviews, and case studies that push the boundaries of our current understanding. Your work could shed light on the genetic, epigenetic, and cellular pathways involved in leukemia pathogenesis, treatment response, and prognostic stratification. Emphasizing interdisciplinary approaches and cutting-edge techniques, in this Special Issue, we seek to foster collaboration and inspire new directions in leukemia research. You are welcome to submit your research and become part of this dynamic platform dedicated to transforming patient outcomes through molecular insights. Please join us in shaping the future of leukemia diagnosis, stratification, and therapy.

Guest Editor

Dr. Juan Manuel Mejia-Arangure

Laboratorio de Genética Funcional del Cáncer, Instituto Nacional de Medicina Genómica (INMEGEN), Facultad de Medicina, Universidad Nacional Autónoma de México (UNAM), Mexico City, Mexico

Deadline for manuscript submissions

31 October 2025

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
