

Special Issue

Molecular Research on Biological Control of Insects

Message from the Guest Editor

Biological control is an effective and environmentally friendly measure to control agricultural health and insect pests. Generally, biological control has progressed well and has played an important positive role in reducing the use of chemical pesticides, ensuring the quality and ecological environment safety of agricultural products, and preventing and controlling pests in characteristic crops. In recent years, more and more countries are vigorously developing biological control. This Special Issue discusses molecular research on biological control agents consisting of microbial insecticides, fungal insecticides, natural enemies, RNA insecticides, insect-resistant crops and other related agents. The specific scope includes the discovery of novel genes and strains and molecular research of insecticidal strains and insect hosts.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
