

## Special Issue

# Molecular and Cellular Basis of Allergies and Allergic Asthma

### Message from the Guest Editor

We are organizing a Special Issue of *IJMS* on the "Molecular and Cellular Basis of Allergies and Allergic Asthma". Allergies and allergic asthma are chronic health conditions that range in frequency and severity from mild to life-threatening symptoms, which vary from person to person. Although one can suffer from allergies without ever having a previous episode of an asthma attack, it is now known and well accepted that people with certain allergies (grass pollen and fungal spore allergies for example) can be particularly vulnerable to thunderstorm asthma epidemics, thus the importance of research on the molecular and cellular basis of allergies and allergic asthma. This Special Issue is intended to present the latest findings related to the molecular and cellular basis of allergies and allergic asthma, as well as the molecular and cellular links between the two conditions.

### Guest Editor

Dr. Cenk Suphioglu

NeuroAllergy Research Laboratory (NARL), School of Life and Environmental Sciences, Faculty of Science, Engineering and Built Environment, Warrn Ponds, Victoria 3216, Australia

### Deadline for manuscript submissions

closed (15 August 2023)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
