

## Topical Collection

# State-of-the-Art Physical Chemistry and Chemical Physics in Europe

### Message from the Collection Editors

Dear Colleagues in Europe, In this Topical Collection, "State-of-the-Art Physical Chemistry and Chemical Physics in Europe", original research articles and reviews from wide aspects of physical chemistry and chemical physics will be published. The contributions must provide significant new innovation, advances, and insights into the physical chemistry and chemical physics fields, with a focus on molecular, supramolecular, and nanoparticle research. All the submitted manuscripts (including invited ones) will be screened by the editors and peer-reviewed by reviewers for further action. We invite scientists in Europe working on physical chemistry and chemical physics to join this initiative and send their best work for consideration to be published in this Topical Collection. Topics to be considered include, but are not limited to, the following: \* Intermolecular forces that act upon the physical properties of materials; \* Reaction kinetics; \* The identity of ions and the electrical conductivity of materials; \* Surface science and electrochemistry of cell membranes; \* Spectroscopy and dynamics of ions, free radicals, polymers, clusters, and molecules.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
