

Special Issue

Nutrients and Natural Agents as Drug Leads for Product Development

Message from the Guest Editors

Demographic transition and stress pose great challenges to society and the scientific community; however, they can be addressed by research on nutrients and natural agents as leading drugs in product development to enable sufficient healthcare. Aging and stress are currently reported to be the dominant risk factors for many degenerative disorders and diseases. Drugs that are well tolerated and safe for use are urgently needed. Nature is an inspiration to the development of potent nutraceuticals and pharmaceuticals that can be consumed for prolonged periods of time without serious side effects. This Special Issue focuses on new developments in the field that target the decisive molecular mechanisms and mediators of human life and health span. Drug discovery and drug development can be based on nutrients and natural agents that have been demonstrated to exert beneficial effects on human health and fitness. Original research articles and reviews are welcome; they should cover the current research areas, including but not limited to the development of food, foods for specific purposes, novel foods, nutraceuticals, and drugs.

Guest Editors

Prof. Dr. Burkhard Poeggeler

Department of Physiology, Johann-Friedrich-Blumenbach-Institute for Zoology and Anthropology, Faculty of Biology, Georg August University Göttingen, Göttingen and Goettingen Research Campus, Göttingen, Am Türmchen 3, Gütersloh D-33332, Germany

Dr. Sandeep Singh

Indian Scientific Education and Technology (ISET) Foundation, Lucknow 226002, India

Deadline for manuscript submissions

closed (20 February 2025)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
