

## Special Issue

# Protein Kinases in Metabolic Disorders

### Message from the Guest Editors

The aim and scope of this Special Issue is to create a dedicated space for original research papers or reviews on the aberrant signaling of protein kinases involved in sustaining the development of metabolic disorders. The issue will include both metabolic diseases with genetic origin (such as Gaucher disease and familial hypercholesterolemia) and those of non-genetic origin (such as diabetes, fatty liver disease, metabolic syndrome). It will also be possible to consider papers on protein kinases involved in obesity and obesity-related metabolic diseases.

---

### Guest Editors

Prof. Dr. Maria Ruzzene

Department of Biomedical Sciences, University of Padova, Padova, Italy

Dr. Christian Borgo

Department of Biomedical Sciences, University of Padova, Via U. Bassi 58/B, 35131 Padova, Italy

---

### Deadline for manuscript submissions

closed (31 August 2021)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
