

## Special Issue

# Immune Microenvironment and Tissue Remodeling in Oral Diseases and Oral Cancer

### Message from the Guest Editor

I am pleased to announce the upcoming launch of an International Journal of Molecular Sciences Special Issue titled “Immune Microenvironment and Tissue Remodeling in Oral Diseases and Oral Cancer”.

This issue will focus on the latest advances in our understanding of the immune-related mechanisms underlying oral diseases and oral cancer. It will also highlight the molecular signaling pathways within tissue microenvironments and how interactions in this context contribute to disease onset, progression, and targeted therapies.

We aim to synthesize high-quality original research, comprehensive reviews, and translational studies that offer new insights into the immune microenvironment in oral cancer, autoimmune diseases, chronic inflammatory conditions, and other oral diseases.

We invite researchers, clinicians, and academic scholars to contribute to this significant issue and share their recent findings with the wider scientific community. We look forward to receiving your valuable contributions and to advancing research in this important field together.

---

### Guest Editor

Dr. Aiman Ali

Faculty of Dentistry, University of Toronto, 124 Edward Street, Toronto, ON M5G 1G6, Canada

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
