

Special Issue

Pharmacology in Pain Management

Message from the Guest Editor

It is a pleasure to Guest Edit this Special Issue of *IJMS* dedicated to pain, which has long been my principal field of interest. This Issue will involve papers related to pharmacological/action mechanisms in addition to assessment and therapeutics, thus involving both basic and clinical science. Often these areas walk separately and there is no interaction between them. Indeed, I am strongly convinced that the sharing of data is fundamental to beginning research in a virtuous circuit in which basic research provides ideas for clinical activity, which will have to confirm these observations. On the other hand, the clinic often provides questions that the basic sciences can subsequently answer with appropriate methodologies. It is therefore evident that a continuous exchange of information can accelerate the knowledge and application processes to provide the best solutions to patients. Therefore, I invite many friends and colleagues to provide their contribution to this Special Issue. Keywords

- Chronic pain
- Cancer pain
- Pain assessment
- Opioids
- Adjuvants
- Opioid-related adverse effects
- Pharmacodynamics
- Pain mechanisms
- Addiction

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
