Pediatric Lung Diseases: Novel Molecular Insights and Therapeutic Advances

Message from the Guest Editor

For the Special Issue “Pediatric Lung Diseases: Novel Molecular Insights and Therapeutic Advances”, we welcome your contributions in the form of original research and review articles on all molecular and cellular aspects which contribute to a better understanding of pediatric lung diseases and potentially pave the way for the development of novel therapies.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
