

## Special Issue

# Peptides for Health Benefits 2019

### Message from the Guest Editors

This Special Issue, "Peptides for Health Benefits", will cover a selection of recent research papers, reviews, short communications, as well as perspectives in the field of bioactive peptides. It aims to cover all aspects of peptide research in relation to health promotion. In particular, this Special Issue emphasizes current knowledge and research trends concerning bioactive peptides, including identification and quantification of peptides from new sources, methods for their production and purification, structure-function relationships, mechanisms of action, development of novel in vitro and in vivo assays for the evaluation of their bioactivity, physiological evidence to support health benefits, and peptide stability, bioavailability, and sensory (or techno-functional) properties. Papers regarding the development of new drugs, functional foods or nutraceuticals based on bioactive peptides will be also taken into consideration.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
