From Pathogenesis to Treatment—New Perspectives in Rheumatology

Message from the Guest Editors

There is a growing body of evidence regarding the pathogenesis of immune-inflammatory rheumatic conditions, leading to significant advancements in therapeutic management. From biologicals targeting various pathogenic pathways to the more recent introduction of JAK inhibitors, there is a currently expanding array of treatment options for patients with inflammatory rheumatic diseases supported by robust scientific evidence.

In the present Special Issue, we aim to collect recent knowledge of the intricate pathogenic mechanisms of rheumatic conditions and their relationship with therapeutic management (novel treatment options, identification of new therapeutic targets, response to remissive treatment). Original research as well as reviews are welcome.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
