

## Special Issue

# Pharmacogenomic and Pharmacogenetic Characterisation of Sarcomas

### Message from the Guest Editors

We are delighted to announce a call for submissions to a Special Issue of the *International Journal of Molecular Sciences* on the topic of pharmacogenomics and pharmacogenetics in musculoskeletal sarcomas. Although not yet as advanced as for other cancers, pharmacogenetic and pharmacogenomic studies applied to musculoskeletal tumors have been providing new insights into the genetic background of these rare sarcomas and are indicating new candidate biomarkers, which may impact clinical care management. Translation to clinical settings of this body of information is expected to improve both effectiveness and safety of conventional chemotherapy trials, as well as to provide new tailored treatment opportunities to personalize treatments. We encourage submission of both original research articles and reviews on pharmacogenomic and pharmacogenetic studies in bone and soft-tissue tumors. All submitted articles will undergo peer review.

### Guest Editors

Dr. Massimo Serra

Pharmacogenomics and Pharmacogenetics Research Unit, Bone and Soft Tissue Sarcomas and Innovative Therapies Unit (OSOTT), IRCCS Istituto Ortopedico Rizzoli SC Osteoncology, Via di Barbiano 1/10, 40136 Bologna, Italy

Dr. Claudia Maria Hattinger

IRCCS Rizzoli Orthopaedic Institute, Laboratory of Experimental Oncology, Pharmacogenomics and Pharmacogenetics Research Unit (Bologna, Italy)

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
