

Special Issue

Plant Metabolome and Molecular Mechanisms of Synthesis

Message from the Guest Editor

Metabolomics is one of the youngest postgenomic sciences and is a rapidly developing field of knowledge. This Special Issue is intended to reveal the theme of the plant metabolome as a link between the genotype, phenotype and environmental factors. Here, we consider the latest advances in metabolomics and their applications to understanding the biology of plant adaptations to stress factors and determining the mechanisms of bacterial and fungal symbiosis with plants. Works devoted to the identification of metabolites in newly discovered and described species of plant organisms are welcome. We discuss future directions and challenges associated with using metabolomics-oriented approaches to understand the metabolic diversity of plants.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
