

Special Issue

Plant Steroids

Message from the Guest Editor

This Special Issue will focus on the latest advances in plant steroid research, especially on biosynthesis and metabolism, interaction with other phytohormones, chemical synthesis, biological activities, and potential medical applications. Original research articles and reviews in this field would be welcome.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
