

## Special Issue

# Effects of Prediabetes on the Progression of Cardiovascular Diseases: When Should We Care?

### Message from the Guest Editors

The prediabetes state is not only a noteworthy risk factor for type 2 diabetes but is also a significant risk factor for macrovascular disease. This issue on Molecular Endocrinology and Metabolism will focus on recent advances on “prediabetes and cardiovascular impairments: the double edge in atherosclerosis development and progression”, including new insights into the molecular mechanisms of plaque progression and rupture and their correlations with hard outcomes (i.e., mortality and cardiovascular events). In addition, we will investigate when and how start a therapeutic strategy to reduce the impact of prediabetes on cardiovascular mortality.

### Guest Editors

Prof. Dr. Raffaele Marfella

Professore Ordinario Medicina Interna, Università degli studi della Campania, Luigi Vanvitelli, Caserta, Italy

Prof. Dr. Maria Luisa Balestrieri

Department of Biochemistry, Biophysics and General Pathology, School of Medicine, University of Campania “Luigi Vanvitelli”, 80138 Naples, Italy

### Deadline for manuscript submissions

closed (31 March 2021)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
