

## Special Issue

# Recent Advances in Anti-Cancer Drugs

### Message from the Guest Editor

This Special issue aims at reporting the latest developments on anti-cancer therapy, with special emphasis on targeting difficult to treat cancers, including but not limited to triple negative breast cancer, lung, pancreatic cancer and glioblastoma. Potential contributors are invited to submit papers on the following topics:

Synergistic anti-cancer therapy, especially involving small molecule inhibitors and agents derived from natural sources

Therapeutic approaches to reverse cancer chemoresistance as well as identification of underlying mechanisms of resistance

Recent developments in immunotherapy

Predictive biomarkers, especially derived from liquid biopsies, to determine therapeutic efficacy

Anti-cancer drugs targeting metastatic dormancy

Agents that modulate the tumor microenvironment for improving therapeutic efficacy

Modern approaches in preclinical drug discovery including 3D culture systems

Experimental studies in in vitro and in vivo models and review articles, are all welcome for consideration.

---

### Guest Editor

Dr. Christiana Neophytou

Apoptosis and Cancer Chemoresistance Laboratory, Basic and Translational Cancer Research Center, Department of Life Sciences, European University Cyprus, Nicosia 2404, Cyprus

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
