

Special Issue

Advances in Pharmacogenomics and Drug Repositioning

Message from the Guest Editors

This Special Issue, “**Advances in Pharmacogenomics and Drug Repositioning**”, presents emerging evidence at the intersection of genomics-driven precision medicine and translational therapeutics, where the recent advances in pharmacogenomics, are reshaping therapeutic decision-making toward more personalized, genotype-guided interventions. This Special Issue is led by and with the assistance of Mr. Venkataramanan Swaminathan (Management and Science University, Selangor, Malaysia). We would like to cover recent advances in this field, and we are delighted to invite you to contribute. In this Special Issue, original research articles, methods/protocol and reviews are welcome.

Potential Paper Topics: pharmacogenomics; drug repositioning; precision medicine; multi-omics integration; genome-wide association studies (GWASs); artificial intelligence in drug discovery; bioinformatics; biomarker discovery; computational drug repurposing; clinical pharmacogenetics and translational medicine. We look forward to receiving your contributions.

Guest Editors

Dr. Vasudevan Ramachandran

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
