

Special Issue

Natural Products in Kidney Diseases

Message from the Guest Editor

This Special Issue aims to collate cutting-edge research that investigates the efficacy, mechanisms of action and therapeutic applications of natural products in kidney diseases. We encourage submissions that cover, but are not limited to, the following topics:

- Pharmacological evaluation of natural products for the prevention and treatment of kidney diseases;
- Mechanistic studies elucidating the molecular targets and pathways involved in the renoprotective effects of natural products;
- Preclinical and clinical trials investigating the safety and efficacy of natural products in kidney diseases;
- Synergistic effects of natural products with conventional therapies in the management of kidney diseases;
- Development of novel drug delivery systems and formulations incorporating natural products for enhanced therapeutic outcomes;
- Exploration of the role of natural products in the prevention of kidney diseases, such as acute kidney injury, diabetic nephropathy and renal fibrosis.

Guest Editor

Dr. Haiyong Chen

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
