

Special Issue

Extraction, Isolation and Identification of Natural Chemicals

Message from the Guest Editor

Natural products are a huge gift from nature to scientists, serving as an important source for drug discovery. Given that approximately 60% of drugs are derived directly or indirectly from natural products, it is crucial to delve into the extraction, isolation, and identification of these natural chemicals. The aim of this Special Issue is to focus on original research and review articles that cover advancements in the extraction, isolation, and characterization of natural chemicals. This includes the development of new methodologies for the extraction and purification of natural compounds, the identification of novel chemical structures, and the elucidation of their potential biological activities. In addition, as *IJMS* is a journal of molecular science, pure clinical studies will not be suitable for our journal and this Special Issue.

Guest Editor

Dr. Jiaozhen Zhang

Key Laboratory of Chemical Biology of Natural Products (Ministry of Education), School of Pharmaceutical Sciences, College of Medicine, Shandong University, Jinan 250012, China

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
