

Special Issue

Medical Imaging Technology in Molecular Pathological Mechanisms and Disease Therapies

Message from the Guest Editor

Medical imaging technology is of paramount importance in human disease and cancer therapy, transitioning from adjunctive information to a dominant assessment and measurement tool used for screening, diagnosis, and guidance of disease therapies. In this Special Issue, we will welcome both original research and review articles exploring all aspects of molecular pathogenesis and therapeutic roles of human diseases or cancers. Please note, though we cannot accept pure clinical studies, clinical research or pure model submissions together with biomolecular experiments or data will be considered for publication. Potential topics include, but are not limited to, the following:

- **Applications of imaging technology in exploring pathological molecular mechanisms;**
- **Disease bioinformatics and genomics analysis;**
- **Cancer diagnosis and prevention via imaging technology;**
- **Advancements in bioimaging applications in anti-tumor drug discovery;**
- **Imaging technology to measure pathological mechanisms and find therapy targets.**

We look forward to receiving your manuscripts.

Guest Editor

Prof. Dr. Howard J. Halpern

Radiation and Cellular Oncology, Center for EPR Imaging In Vivo Physiology, University of Chicago, Chicago, IL, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
