

# Special Issue

## Recent Advances in Biomolecular Recognition II

### Message from the Guest Editor

This Special Issue is the continuation of our previous Special Issue, entitled "Recent Advances in Biomolecular Recognition". The goal of this Special Issue is to bring together wet- and dry-lab researchers with common interests in biomolecular recognition and to share their research efforts and to seek collaborations addressing common interesting questions. A Special Issue with publications from researchers utilizing and developing different experimental and computational methods would certainly help to reveal the strengths and weaknesses of their approaches and enable one to make further improvements. Potential topics may include protein–protein binding; protein–membrane interactions; protein–nucleic acid interactions; interactions with small molecules and drug design; electrostatics, polarization, and solvation in molecular recognition; and mutations in molecular recognition.

### Guest Editor

Prof. Dr. Ray Luo

Department of Molecular Biology and Biochemistry, University of California, Irvine, CA 92697, USA

### Deadline for manuscript submissions

closed (31 May 2023)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
