

## Special Issue

# Molecular Mechanisms of Reproduction and Reproductive Diseases

### Message from the Guest Editor

With advancements in reproductive biology, infertility and reproductive diseases, including endometriosis, preeclampsia, and premature ovarian failure, are properly diagnosed. Despite these advancements, significant challenges remain in fully understanding human reproduction at the molecular level. This Special Issue delves into various aspects of the molecular mechanisms underlying reproduction and reproductive diseases, exploring both human and animal models to provide a deeper understanding of these complex processes.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
