

## Special Issue

# Physiological and Pathological Role of ROS: Benefits and Limitations of Antioxidant Treatment

### Message from the Guest Editors

Currently, much progress has been made in understanding the role of ROS in human diseases and ageing as well as in the regulation of physiological functions, and in identifying the signaling pathways involved in ROS. However, much remains to be understood about the mutual interactions among signaling pathways underlying organism-adaptive responses, their modifications (which occur during ageing), and some disease states. For this reason, we invite you to submit original research articles and reviews that address the effects of ROS production and antioxidant treatment in living organisms, focusing on their impact on health, diseases, and ageing.

### Guest Editors

Prof. Dr. Sergio Di Meo

Dr. Paola Venditti

Dr. Gaetana Napolitano

### Deadline for manuscript submissions

closed (30 June 2019)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
