Molecular Research on Oral Cancer

Message from the Guest Editor

Oral cancer is a common type of malignancy known around the world. Despite current advancements in treatment options, the mortality of patients with oral cancer has remained mostly unchanged over the past few decades. An improved understanding of oral cancer dissemination is crucial for dissecting the molecular mechanisms of oral cancer progression, but also for the developing novel therapeutic interventions. We invite the researchers to contribute original and review articles on the molecular mechanisms of oral cancer progression, including the discovery of novel anti-cancer phytochemicals and the novel signalling pathways, as well as signalling molecules on oral cancer. We are pleased to invite you to our Special Issue on “Molecular Research on Oral Cancer”. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
