

Special Issue

Redox Homeostasis, Signaling, and Oxidative Stress in Health and Disease

Message from the Guest Editors

This Special Issue on “Redox Homeostasis, Signaling, and Oxidative Stress in Health and Disease” welcomes original research articles that illustrate and stimulate the growing efforts to understand the implication of redox signaling in pathological conditions such as cancer, cardiovascular and metabolic diseases, inflammatory, autoimmune, and chronic degenerative diseases and potential redox-mediated therapeutic approaches to counteract or prevent these conditions. Research articles investigating and reporting new aspects of redox-regulated signaling phenomena triggered by the interaction of xenobiotics with the cell/organ/tissue/body redox-regulatory apparatus are also particularly welcome. We also appreciate the submission of review articles that critically assess and discuss the current state of the art concerning the highlighted topics

Guest Editors

Dr. Gianfranco Pintus

1. Professor of Biochemistry, Department of Medical Laboratory Sciences, University of Sharjah, P. O. Box 27272 Sharjah, United Arab Emirates

2. Department of Biomedical Sciences, University of Sassari, Sassari, Italy

Dr. Panagiotis Paliogiannis

Department of Medical, Surgical and Experimental Sciences, University of Sassari, Viale San Pietro 43, 07100 Sassari, Italy

Deadline for manuscript submissions

closed (31 December 2020)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
