

Special Issue

Polymers from Renewable Resources

Message from the Guest Editors

We are delighted to announce a call for submissions to a Special issue of the International Journal of Molecular Sciences devoted to “Polymers from Renewable Resources”, and focused to synthesis, modification, characterization and application of the polymers. The importance of development of polymers from renewable resources is continuously increasing due to depletion of fossil resources and issues related to wastes disposal. Therefore, bio-based polymers become more attractive for industry and academia. Similarly, government policies are more and more focused on renewable materials from the standpoints of being environmentally benign and sustainable.

We encourage submission of both original research articles and topical reviews. All submitted articles will undergo peer review.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
