Mitochondrial DNA and RNA 2.0

Message from the Guest Editor

This Special Issue is the continuation of our previous Special Issue “[Mitochondrial DNA and RNA](#)”. The goal of this Special Issue is to present the current knowledge around mtDNA replication and repair mechanisms, processing of mitochondrial RNA transcripts, and how alteration of these processes may affect cell physiology in pathological conditions. About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
