

Special Issue

Plant Secondary Metabolites in Plant Defence against Abiotic and Biotic Stresses: 3rd Edition

Message from the Guest Editor

This Special Issue will collect research results focusing on different aspects of plant secondary metabolites, from their biosynthesis in both the above- and belowground plant parts to their involvement in signaling, immunization, priming, and cross-tolerance against (abiotic and biotic) stresses. Special consideration will be given to works exploring the possibility of making use of plant secondary metabolites to develop practical applications for sustainable plant defense in the field.

Guest Editor

Dr. Federico Brilli

Institute for Sustainable Plant Protection (IPSP), National Research Council of Italy (CNR), Rome, Italy

Deadline for manuscript submissions

closed (20 November 2024)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
