

Special Issue

Genetics and Epigenetics of Cancer Cells and Tumor Microenvironment

Message from the Guest Editor

Our Special Issue aims to publish original and review articles on the germinal and somatic mutations, DNA methylation profiles, histone code alterations, and miRNAs that control the biology of transformed cells and various cells of tumor microenvironments and their circulating precursors. We invite submissions that deal with the pre-clinical ex vivo and in vivo models and analyses of patient cohorts. Of particular interest are genetic and epigenetic biomarkers that can be identified by minimally invasive technologies, facilitating their translation into clinical practices, especially if such genetic and epigenetic biomarkers can be applied for the personalisation of therapeutic schemas and for the stratification of cancer patients. We aim to highlight the critical pathways and molecules for therapeutic targeting to revert detrimental genetic and epigenetic programs in various cell types and restore homeostatic balance in tissue and organs.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
