Advances in Genomic Pathology

Message from the Guest Editor

This Special Issue aims to provide a comprehensive overview of recent advances in genomic pathology. We invite contributions, which may include original research articles, communications, and review articles, that provide insight into any aspect of genomic pathology.

Topics include, but are not limited to, the following:

- Bioinformatics methods;
- Artificial intelligence and machine learning;
- Digital pathology;
- Personalized medicine;
- Cancer genetics and epigenetics;
- Medical genomics.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
