

Special Issue

The Interplay between Host Defense, Infection and Pathogen Virulence in Sepsis and Septic Shock

Message from the Guest Editor

This Special issue aims to expand the current knowledge on sepsis and septic shock in different stages and on its possible therapeutic exploitation. We aim to address the key roles of mechanisms of sepsis susceptibility, clinical presentation and outcomes. Experimental studies in in vitro and in vivo models, review articles, and clinical studies including biomolecular experiments are welcome for consideration.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
