

Special Issue

Serotonin in Health and Disease

Message from the Guest Editors

This Special Issue of the International Journal of Molecular Sciences will focus on Serotonin. The purpose of this Special Issue is to review the current state of knowledge of serotonergic mechanisms in health and diseases which will consider both original research articles and reviews. Contributions from different fields of research are welcomed.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
