

Special Issue

Sirtuins in Health and Disease

Message from the Guest Editors

This Special Issue in the *International Journal of Molecular Sciences* aims at presenting contemporary research on the role of sirtuins both in health and disease, which shall include research in different organisms and models, and can spread across the entirety of cellular physiology and organ disease. We cordially invite you to submit original articles, review articles, methodological papers, as well as studies related to clinical cases. We encourage researchers to address the current knowledge as well as existing controversies, or present outstanding questions and new concepts related to sirtuins and NAD⁺ metabolism.

Guest Editors

Dr. Heiko Bugger

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
