

Special Issue

New Strategies in Therapeutic Targets of Soft Tissue Sarcoma: Translational Implications

Message from the Guest Editor

This Special Issue aims to summarize the recent advance of new therapeutic options and biomarkers in Soft Tissue Sarcoma (STS). We welcome original research articles and reviews covering clinical, translational, and basic studies, focusing on but not limited to:

- (1) In vitro, in vivo, or ex vivo-validated studies on emerging therapeutic targets for Soft Tissue Sarcoma, including immune checkpoints, oncogenes, tumor suppressor genes, non-coding RNAs (miRNA, lncRNA, circRNA), and exosomes;
- (2) Innovative therapeutics including small molecules, antibodies (such as PD-1/PD-L1 antibodies), as well as cell therapy (CAR-T and other gene-engineered cells);
- (3) Prognostic and predictive biomarkers;
- (4) Clinical evaluation of novel treatments efficacy with biomolecular experiments;
- (5) New drug delivery systems to achieve precise control of drug release at specific tissue sites and time points, including nanoparticles, micelles, and other natural or artificial materials.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
