Molecular Spectroscopic Approaches in Biochemistry and Microbiology

Message from the Guest Editor

Modern spectroscopic techniques have proven to be indispensable in research related to life sciences, where the objects ranging from biocomplexes to supramolecular structures and further to cells and tissues are commonly highly complicated.

Spectroscopic approaches allow their structural and compositional features to be investigated at the molecular level, which is often unattainable by other means. Moreover, many spectroscopic techniques are non-destructive, which is of paramount importance for biological samples. This Special Issue of *IJMS* will include a collection of expert-level experimental and review-type papers where the main results were obtained using a wide range of modern spectroscopic techniques applied to biochemical and microbiological problems.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
