

Special Issue

Vitamin D Signaling in Human Health and Diseases

Message from the Guest Editor

We are thrilled to invite you to contribute to a Special Issue dedicated to “Vitamin D Signaling in Human Health and Diseases”. As the impact of vitamin D in regulating human health has gained significant attention in recent years, we seek to explore its multifaceted role in various physiological processes and its implication in human diseases. This Special Issue aims to provide a comprehensive collection of research articles, reviews, and perspectives that explore the intricate mechanisms of vitamin D signaling. We strongly encourage submissions to cover a wide spectrum of topics, including molecular pathways, cellular responses, and clinical outcomes of vitamin D biology. Authors are encouraged to explore topics such as the role of vitamin D in immune modulation, bone health, cardiovascular function, cancer prevention, and its influence on diverse organ systems. We look forward to receiving your manuscripts.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
