The Role of Lutein for Human Health

Message from the Guest Editor

Lutein belongs to a group of xanthophyll pigments playing several important physiological functions in nature, including protection against oxidative damage. The presence of lutein in the human diet has been documented to have a pronounced effect in protection against the development of Age-related Macular Degeneration (AMD), a disease recognized as a main cause of blindness in elderly people. Moreover, lutein was suggested to have a beneficial effect in improving and preventing against decline of cognitive functions of a brain. Despite years of intensive studies on possible molecular mechanisms underlying beneficial activity of lutein and other xanthophylls for human health our understanding in this area is still not complete. Research on such mechanisms is reported and discussed in this Special Issue.

Guest Editor

Prof. Dr. Wiesław I. Gruszecki

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
