

## Special Issue

# Non-coding RNAs and Novel Therapeutic Targets in Human Cancers

### Message from the Guest Editors

The scientific fraternity believes that ncRNAs will further revolutionize the field of cancer research, including diagnosis and therapeutic interventions. Therefore, we are gratified to invite you to contribute to this Special Issue, 'Non-coding RNAs and Novel Therapeutic Targets in Human Cancers'. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: • Molecular mechanisms establishing the functional role of ncRNAs in cancers.

- The implications of ncRNAs in tumor heterogeneity, lineage, and subtype specificities.
- The identification and characterization of ncRNA in circulating tumor cells or liquid biopsies for biomarker development.
- The role of ncRNAs in modulating drug resistance or therapy failure.
- Current approaches and future perspectives for the characterization of cancer-specific ncRNAs. and Dr. Mohd Wasim Nasser

### Guest Editors

Dr. Parvez Khan

Department of Biochemistry and Molecular Biology, University of Nebraska Medical Center, Omaha, NE 68198-5870, USA

Dr. Mohd W. Nasser

Department of Biochemistry and Molecular Biology, University of Nebraska Medical Center, Omaha, NE 68198-5870, USA

### Deadline for manuscript submissions

closed (31 August 2023)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
