

Special Issue

Advances in Metabolism, Immunology, Genetics in Thyroid Cancer and Thyroid Disease: From Bench to Therapy

Message from the Guest Editor

This Special Issue will focus on the molecular bases of hormone metabolism alteration, thyroid cell dysfunction, and immune–endocrine interaction; moreover, special attention will be dedicated to the investigation of molecular markers involved in thyroid cancer diagnosis, prognosis, and therapy. Reports on patients with novel or peculiar molecular characteristics will also be included. The aim of this Special Issue is to provide an overview of the most recent advances in the field of molecular mechanisms and alterations driving the development of thyroid disorders, and to highlight how the basic research has the potential to influence and contribute to the clinical perspective.

Guest Editor

Prof. Dr. Fulvio Basolo

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
