# Toxicology and Pharmacology of Natural Products

### Message from the Guest Editors

This Special Issue seeks to provide insights into the pharmacology and toxicology of natural products. It aims to illuminate both their potential as therapeutic agents and the safety considerations that accompany their use. We welcome original research articles and reviews that cover, but are not limited to, the following topics:

- Pharmacological properties of natural products;
- Toxicological evaluations of natural products;
- Drug discovery from natural sources;
- Interactions between natural products and pharmaceuticals;
- Advancements in analytical techniques and ethnopharmacological approaches;
