

Special Issue

The Role of the IGF Axis in Disease, 4th Edition

Message from the Guest Editor

This Special Issue continues on from our previous Special Issues, "The Role of the IGF Axis in Disease", "The Role of the IGF Axis in Disease 2.0", and "The Role of the IGF Axis in Disease, 3rd Edition". This research topic aims to highlight the key roles that members of the insulin-like growth factor (IGF) axis (including ligands, IGF-I and -II, IGF binding proteins (IGFBPs1-6) and IGF receptors) play in the risk and development of diseases. The IGF family can affect many physiological systems in the body by modulating cell processes, including proliferation, differentiation, survival, and metabolism. Consequently, they are often dysregulated in many pathological conditions, leading to the development of different strategies to target them.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
