Plant-Based Early Therapeutics for Parasitic Infections Combined with Functional Modern Diagnosis Methods

Message from the Guest Editor

We are pleased to invite you to contribute to the Special Issue “*Plant-Based Early Therapeutics for Parasitic Infections Combined with Functional Modern Diagnosis Methods*” in the *International Journal of Molecular Sciences* (IF 4.9; <https://www.mdpi.com/journal/ijms>). We welcome original research and comprehensive reviews on topics including:

- Bioactive compounds from medicinal/functional plants for treating parasitic infections in humans and animals.
- Innovative diagnostic methods for parasite detection, including AI-based systems and image recognition.
- Strategies linking early diagnosis with therapeutic application of plant-based treatments.
- Tools for monitoring parasite-infected hosts and optimizing environmental health.
- Precise delivery systems and evaluation of plant-based antiparasitic efficacy.

We hope you find this topic of interest and choose to publish your work in the *International Journal of Molecular Sciences*. If you could inform us regarding your decision within a week or so, it would greatly help the management of the Special Issue.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
