# Targeted Treatments in Cancer: 2nd Edition

### Message from the Guest Editor

We focus on researching the usefulness of **nuclear medicine treatments**, and we aim to drive the development of novel **therapeutic agents**. Since molecular biology and basic scientific studies are indispensable for the development of technology in nuclear medicine, we will prioritize basic research over clinical trials/data. **Keywords:** TAT (targeting alpha therapy); nuclear medicine; cancer treatment; imaging; radioisotope (RI); surface marker; TRT (targeted radioisotope therapy)
