Special Issue

Immune Checkpoint Inhibitors: Emerging Advancements for Cancer Therapy

Message from the Guest Editor

Over the last decade, immune checkpoint inhibitors have steadily progressed, becoming a first-line treatment either alone or in combination with traditional therapies. As a result of this, clinical outcomes have improved for a variety of cancers. This Special Issue will focus on the recent advancements in immune checkpoint inhibitor development and use. The topics covered in this Special Issue include biomarker discovery, investigation into resistance mechanisms and autoimmune side effects, health disparities, the exploration of novel checkpoint targets, synergistic combination therapies, extended applications of conventional checkpoint inhibitors, and the development of improved strategies to tackle immune anergy and exhaustion. Methods to monitor treatment outcomes or new models for preclinical evaluation will also be considered.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
