Targeting Metabolism for Cancer Prevention and Therapy: Dietary and Pharmacological Approaches

Message from the Guest Editor

In addition to developing DNA alterations, cancer cells reprogram their metabolism to meet their elevated energy demands, to produce building blocks for biosynthesis and proliferation, to survive under conditions of elevated oxidative stress, and to evade the immune system. The metabolic differences between cancer cells and normal cells offer an opportunity to develop new strategies to prevent and treat the disease. The aim of this Special Issue is to collect original research and review articles on dietary and pharmacological approaches to target the metabolism for cancer prevention and therapy.

Guest Editor

Dr. Estefanía Burgos-Morón

Department of Pharmacology, Faculty of Pharmacy, University of Seville, 41012 Sevilla, Spain

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
