

Special Issue

Advanced Molecular Research on the Diagnosis and Treatment of Chronic Liver Diseases

Message from the Guest Editor

This Special Issue aims to cover state-of-the-art research on chronic liver diseases, inviting authors to submit original and review articles on recent findings in this area, particularly molecular approaches for the diagnosis and treatment of these diseases. Potential topics include, but are not limited to, the following:

- Biomarkers for chronic liver diseases;
- Genomic research for chronic liver diseases, including gene SNPs (single-nucleotide polymorphisms);
- Molecular mechanisms of chronic liver diseases;
- Recent advances in the management of chronic liver diseases, including liver cirrhosis;
- Molecularly targeted therapy for liver cancer.

Guest Editor

Dr. Hirayuki Enomoto

Division of Hepatobiliary and Pancreatic Disease, Department of Internal Medicine, Hyogo College of Medicine, Nishinomiya 663-8501, Hyogo, Japan

Deadline for manuscript submissions

closed (20 March 2026)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
