

## Special Issue

# Recent Advances in Photocatalysis: An Innovation in Catalysis

### Message from the Guest Editor

Environmental protection has risen to the top of the global agenda, and major efforts are being undertaken to identify sustainable strategies for long-term environmental remediation. Two of the most pressing concerns to be faced by the world are water contamination and the energy crisis. Photocatalysis is a green technology that is one of the most promising pathways to alleviating environmental contamination and the energy dilemma while adhering to sustainable and green chemistry principles. Photocatalysis involves photocatalytic activation with water under solar light irradiation (cheap, renewable and widely available energy) and is preferred for use in a wide range of processes such as organic pollutant mineralization, fine organic reactions, and also the production of hydrogen, which is a clean energy source (a zero-carbon fuel). This Special Issue aims to publish promising recent advances in the photocatalysis field.

### Guest Editor

Dr. Andreea L. Chibac-Scutaru

Polyaddition and Photochemistry Department, Petru Poni Institute of Macromolecular Chemistry, 41 A Gr. Ghica Voda Alley, 700487 Iasi, Romania

### Deadline for manuscript submissions

20 October 2025

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

---

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
